

B2B | BENCHING

Introducing ZGO Solutions' most comprehensive and versatile height adjustable desk collection, Harbor was created to give you all the options in a proven, popular design.

BACK-TO-BACK 4L

Aesthetic and Smart, the Harbor Back-to-Back desk frame seats two users facing each other.

BENCHING 8L

Aesthetic and Smart, the Harbor Benching desk frame connects users together, reduces your real estate footprint, and delivers seamless cable management.

Ultimate Customization:

From traditional frame construction to ZGO Solutions' patented Smart System, the Harbor family of products includes both cost-effective and intelligent performing configurations depending on the needs of your organization.

Future-Ready Framing:

With a wide range of options including freestanding in a 2 or 3 leg design, back-to-back, and benching, Harbor offers a breadth of application variety that can be reconfigured using the Smart System's kit of parts.

Ergonomic Choice:

Compatible with ZGO Solutions' UL-approved control unit and motor, this square-shaped frame option provides high stability for a variety of applications, BIFMA G1 and EN 527 compliant height ranges, and low noise for optimal user-experience.

Smart System Product

Product Options:

The Harbor Collection is a square column (large column at base) height-adjustable table available with 2 different column to frame assembly methods:

- the traditional assembly option with standard screw attachments
- ZGO Solutions' patented smart/quick assembly with an innovative lock & click handle bar attachment
