

FREESTANDING 2L, 3L

A new-age height adjustable desk, Axis represents a refined, intelligent performing freestanding solution, all while protecting your bottom line.

FREESTANDING 2L & 3L

The traditional styles you love, enhanced with modern technology. The Axis Freestanding desk frame is perfect for creating rearrangeable single-user setups in both a commercial and residential environment.

Refined Detail:

Inverted, telescoping columns deliver a stable, clean design from top to bottom.

Brand Expression:

Sharing the same leg design as our popular Universal Collection, Axis also features accented feet and end pipe colors, integrated single-source power, and quick assembly using our patented Smart System components.

Ergonomic Choice:

Compatible with ZGO Solutions' UL-approved control unit and motor, this inverted square-shaped frame option provides high stability for a variety of applications, BIFMA G1 and EN 527 compliant height ranges, and low noise for optimal user-experience.

Smart System Product

Product Options:

The Axis Collection is a square column (large column at top) height-adjustable table available with 2 different column to frame assembly methods:

- the traditional assembly option with standard screw attachments
- ZGO Solutions' patented smart/quick assembly with an innovative lock & click handle bar attachment
