

# FREESTANDING 2L, 3L

Introducing ZGO Solutions' most comprehensive and versatile height adjustable desk collection, Harbor was created to give you all the options in a proven, popular design.

## FREESTANDING 2L & 3L

Aesthetic and Smart, the Harbor Freestanding desk frame is perfect for creating rearrangeable single-user setups in both a commercial and residential environment.

### Ultimate Customization:

From traditional frame construction to ZGO Solutions' patented Smart System, the Harbor family of products includes both cost-effective and intelligent performing configurations depending on the needs of your workspace.

### Future-Ready Framing:

With a wide range of options including freestanding in a 2 or 3 leg design, back-to-back, and benching, Harbor offers a breadth of application variety that can be reconfigured using the Smart System's kit of parts.

### Ergonomic Choice:

Compatible with ZGO Solutions' UL-approved control unit and motor, this square-shaped frame option provides high stability for a variety of applications, BIFMA G1 and EN 527 compliant height ranges, and low noise for optimal user-experience.

Smart System Product

## Product Options:

The Harbor Collection is a square column (large column at base) height-adjustable table available with 2 different column to frame assembly methods:

- the traditional assembly option with standard screw attachments
- ZGO Solutions' patented smart/quick assembly with an innovative lock & click handle bar attachment
